THE APPLICATION PROCESS

The Application

Applications for our clerkship and graduate programs should be made online, via our website.

Applications should include a cover letter, CV and academic transcript. We will also ask you a few questions as part of our application process.

The Interview Process

You will experience a two stage interview process with us.

First Round Interview

Your first interview will be with one of our senior lawyers that are part of our recruitment team, as well as a member of our Human Resources team.

We accept clerkship and graduate applications in line with law society guidelines in the relevant state. Please visit klgates.com/careers for application dates by office location.

The first interview is our opportunity to get to know you and will expand on your application, your interest in K&L Gates and will be a chance for you to get to know us.

Second Round Interview

For Melbourne and Sydney applicants, the second interview is a group activity. You will work through a series of legal scenarios with a group of candidates and two members from our recruitment team.

For Brisbane and Perth applicants, you will either have a group activity or have a second round interview with a partner and special counsel or senior associate. This will take a similar format to your first interview but is another opportunity for you to meet people in different teams and to get to know the firm—so be sure to ask the questions you really want the answers to.

TIPS FOR SUCCESS

Application Tips

Your online application is your first opportunity to stand out. Take a look at the key attributes we look for in a clerk or graduate and tailor your application to showcase these.

If you don't have legal experience, don't make this a focus of your application. Instead, tell us how the experiences you have had would relate to a clerkship or graduate position at our firm. Remember, you gain and build on key skills through all aspects of your life, so be sure to include relevant work history, academic achievements and personal interests—these all make you!

Wondering how to demonstrate your commerciality? Remember, we are a corporate law firm, so tell us about your interests in commercial aspects of the world, such as in business or finance. Explain why you want to be a corporate lawyer and why are you interested in K&L Gates specifically. We understand you will be applying to other firms but make sure you tailor your application to show us why K&L Gates is the right place for you to start your legal career. Take a look at our website to find out who we are but don't just copy and paste from there—we know who we are, we want to know who YOU are.

Before you submit your application, read it again, then again. Then, ask someone else to read it! Accuracy and attention to detail are key skills for a lawyer and you need to demonstrate this in your application. So make sure you correct any typos—or references to other firms!

Interview Tips

First impressions really do count, so make sure you consider this when preparing for your interview. Double check the date, time and location of your interview and plan ahead—know where our offices are so you are on time. Not only is it a bad look to be late, you will feel far more relaxed and comfortable if you arrive in good time and are able to sit and gather your thoughts for a few minutes before your interview.

Know your CV and application form back to front. This forms the basis of our interview and we will ask you questions in relation to the information you submitted.

Most importantly be yourself. Be honest in your responses and don't be afraid to ask questions about us or the firm that are specific to what you are looking for in an employer.
